Mobile Shelves, The easiest way to escape your temple of doom

Maximize your storage without minimizing office space

For convenience and easy access and retrieval, nothing works better than Four Post Shelving. By utilizing vertical space rather than floor space, you can save up to 60% of usable space. Dependable and versatile you can utilize Four Post for legal and letter records, X-Rays, Books, or even heavy-duty storage.

Shelving units are designed for ease of motion across the floor mounted rolling tracks. Little effort is needed when moving from shelf to shelf.

All of the shelving and cabinets we represent can be installed on Mizer mobile shelving to maximize space and optimize efficiency.

Don't worry about sensitive records. Security features such as steel rolling shutters are available.

Mobile cabinets are also designed to fit the existing style of your work area. Several styles available to suit your work space.
